

## RFID (Radio Frequency Identification System) based Gate pass entry system

- As a part of Modernization of Indian Sea Ports in order to enhance security, remove bottle necks of seamless movements of traffic across port gates, ensure tracking, tracing of man, material, vehicle, equipment and other assets, Visakhapatnam Port Trust has initiated implementing Radio Frequency Identification (RFID) based access control systems at the following gates:

1) GCB Gate.

2) East Quay-7 - Gate.

3) Dock main Gate.

4) West Ore Berth-Gate.

5) West Quay 7&8 - Gate.

6) North West Gate.
