CIRCULAR No - 1723

Sub: Improving the capacity utilization of OR-1& OR-2 berths in Inner Harbour of Visakhapatnam Port- Phase-III – Works –Dredging in SDR/ weathered rock by Underwater controlled blasting –widow for vessel movements in western arm Channel in day time --Approval –reg.

Ref:-CE Lr.No.ENG/EE/OR-1& 2/301D/Pt.XXXII/262 dated 19-07-2024

Vide reference cited, CE/VPA informed that as per the approved window period of 12hours in day time i.e., from 06:00AM to 06:00PM on every day in western arm channel on movement of vessels, the vessel movements to/from OR-III & FB can be allowed from 06:00PM to 6:00AM i.e., during night only.

Further, the vessel movements can be allowed from/to OR-1 during day/night time for the present, since blasting operations will be planned in the channel beyond 70M from the vessel.

Therefore, all trade are hereby requested to take note on the above and plan vessels movements to OR-III & FB accordingly.
