

VPA inaugurates EV charging stations at AOB

Dr M Angamuthu, IAS, chairperson, Visakhapatnam Port Authority (VPA), inaugurated a set of Electric Vehicle (EV) charging station at the Administrative Office Building (AOB) on 27th May, marking a significant step toward sustainable transport infrastructure within the port premises. The newly installed facilities include two DC EV fast charging stations and two AC charging stations ranging from 7 to 22 KW capacity. These enable simultaneous

charging for up to six electric vehicles, contributing to the port's vision of a greener and cleaner environment. VPA's commitment of EV charging infrastructure meets the targets set by MoPSW in line with Harit Sagar guidelines by providing fast charging solutions to Electric Vehicles and supports India's green energy goals and decarbonization efforts in the maritime sector.

A step toward a Greener Tomorrow ! Hon'ble Chairperson, VPA, Dr. M. Angamuthu, IAS, have inaugurated the Electrical Vehicle (EV) Charging Station at AOB, VPA. The initiative stands as a testament towards VPA's commitment to green and sustainable energy.
