Terms of reference:

VPA will arrange facilities for testing like (i) height arrangement by providing two legged ladders (ii) by providing chippers (with tools like chisels and hammers) for chipping the plaster of concrete surface on which the proposed NDT tests can be conducted.

Scope of services:

1. The listed buildings/structures will be inspected to take note of the physical observations/condition.
2. The NDT tests Rebound Hammer and UPV will be conducted on the exposed concrete surfaces to ascertain the condition/ health of the concrete in the existing structure.
3. The test data and physical observations will be analyzed thoroughly to assess the condition of the building and conclude if the same structure is structurally sound to take care of the design loads specified for the structure as per Indian Standards.

Time line:

1. The inspection and testing part of the job will be completed within 3-4 months from the date of issue of the work order.
2. The final inspection reports will be released within the next 2 months in phased manner.

Payment schedule:

25% of the total quoted amount (testing charges and consultancy charges) shall be released as advance before starting the work. Remaining amount shall be released in three equal installments as the work progresses.

Deliverables:

Detailed technical inspection reports for each structure mentioned in the work order specifying the condition of the building along with test reports.

It is requested to contact the Chief Engineer, VPA for further particulars and start the work. The letters under reference and this work order shall form part of the contract entered by you with VPA. You have to enter into an agreement on non-judicial stamp paper worth of Rs. 100/- (Rupees one Hundred only) immediately.

Thanking you Sir,

Yours faithfully,
